

Quick Guide on using iDuas – Thursdays

To Download MP3s

iDuas – Thursday is integrated with Mp3s. This allows you to listen to the Du'a/Amaal while following or reading along. To setup, click on **Settings icon** (see below)

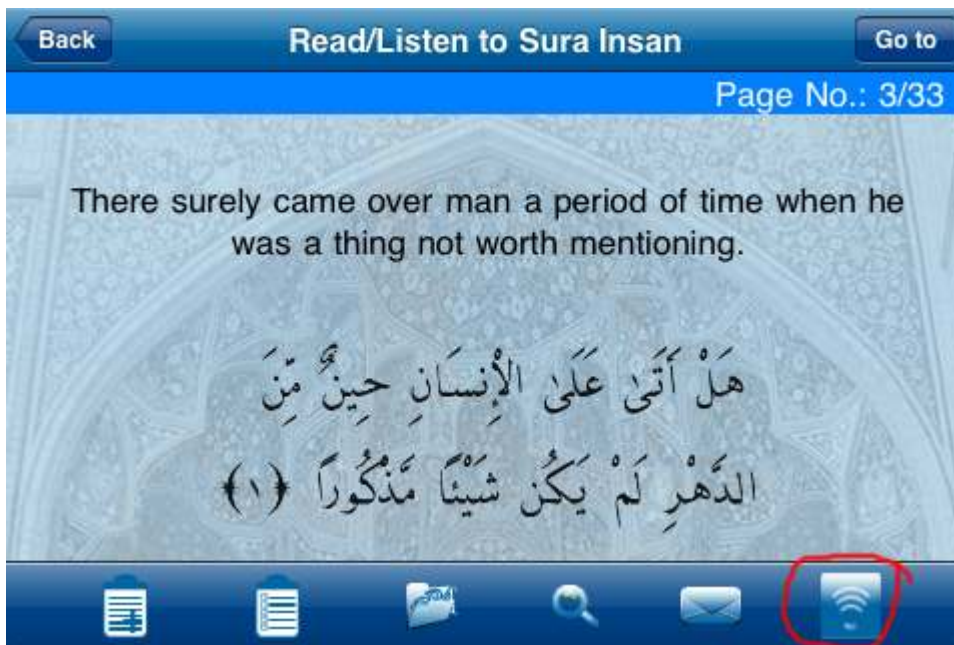

You will then see a screen like the below. Simply check off what you want to download. And then click on the download icon.

Please note, with iDuas – Thursday, you have the ability to specify the MP3 for each Du'a/Sura. We have set defaults but you can change this. **Please ensure it is an MP3 file and is an actual [http://](#) link**

We recommend you connect to WiFi as the downloads will take time over Edge or 3G.

To listen to the Mp3. Simply click on the MP3 icon.
